

Be A Kent School District Coach.

Join a team that inspires and enhances student athletes to become their best self.

Together we motivate students to thrive academically, socially, and physically. The Kent School District Athletics and Activities Department provides guidance to students through athletics and activities as they develop into productive adults, who understand that dedication, resiliency, and respect translate into success in life. As a KSD Head Coach or Assistant Coach, you can join us in carrying out our vision and values.

Vision: The Kent School District will provide exceptional athletic and activity opportunities that focus on overall student development, encourage excellence, enhance our educational programs, and promote positive community engagement. The KSD Athletics and Activities team is dedicated to supporting and furthering the strategic plan of the school district as we provide our students with the best opportunities to pursue their interests and gain skills to be successful.

Opportunities+ reflects our effort to leverage middle and high school connections to school-based athletics, activities, and clubs that provide experiences which help build confidence, leadership skills and teamwork, while instilling a strong work ethic. These foundational attributes help build the life skills of competing, overcoming adversity, planning for success, and developing positive habits. Our intentional programming will provide opportunities for every student plus the added value of developing purpose, passion, and preparing our students for a well-rounded life.
